28	Trauma Injury
11	Altered Level of Consciousness
8	Chest Pain
7	Abdominal Pain
6	Nausea/Vomiting
5	Dyspnea/Shortness of Breath
4	Respiratory Failure
4	Seizure
4	Weakness

### Community Involvement/ Training:

- NR-EMT Practical Testing for SWOSU EMT Class
- CPR Classes for SWOSU Pharmacy Students
- Internal Paramedic Refresher Training
- Joint Training Weatherford Fire Department - First Aid and Splint

### Training:

Lifeguard hosted refresher training for its paramedic team members in March. The state of Oklahoma requires paramedics to complete 48 hours of continuing education each year. Therefore, Lifeguard's training focused on several aspects of paramedic protocols and skill sets in this refresher training.

### Community Involvement:

Lifeguard assisted SWOSU in their practical testing for their EMT graduates that recently completed their coursework. The students then had to complete their exams for their National Registry license, which included a scenario-based portion. Lifeguard provided proctors for the testing.

Lifeguard was also visited by several community members in March; one group brought thank you goodies following the a challenging medical call that had a positive outcome.

### First Responder Team:

The fire department requires its team to complete annual training as it relates to various aspects of their first responder role. Lifeguard had several opportunities to train with the Weatherford Fire Department, including splinting and first aid refresher. The agencies also worked together to become more familiar with the layout and organization of each other's vehicles.

Lifeguard also spent some time further developing its working relationship with the local air EMS program, Air Evac. It was a good opportunity for the teams to get to know one another better.
